

INCOMING GRADUATE STUDENTS IMMUNIZATION REQUIREMENTS

- Employee Health Service (EHS) welcomes you to UCONN Health. To better serve you, for any communication with Employee Health Service by phone, email, fax or mail, always indicate that you are a Public Health Student. Attached is the Immunization Documentation Form which **MUST** be completed **and submitted to Employee Health Service** prior to the first day of class. This form can be completed by your primary care physician. If you cannot get to see your physician, you can make an appointment with Employee Health Service at the UConn Health Center. **We would request you try to see your own physician first.**

If you choose to come to Employee Health Service:

- Call Central Registration at UConn Health Center at 860-679-1600
- Make an appointment at your earliest convenience by calling 860-679-2893
- Bring a copy of childhood vaccinations, if available, to your appointment.
- All blood work will be billed to your health insurance company.

If you are mailing or faxing your completed form to us:

- **Please write your email address and phone number on the Immunization Documentation Form.** Once your form is received, we will notify you if you have NOT met UCHC immunization requirements.

- Attach a copy of childhood vaccinations if available, to your completed form
- **Mail or fax completed form to:**

VACCINATION and IMMUNIZATION REQUIREMENTS:

- **Documentation of two MMR vaccines and two varicella vaccines. If this cannot be obtained immune titers are acceptable for Measles, Mumps, Rubella, and Varicella. If any titers are negative or indeterminate then documentation of booster vaccines are required after the negative titer.**
- **2 negative TB skin tests or 1 negative Quantiferon TB Gold blood test are required to be completed within the previous 12 months. If you have a history of a positive skin test then the Quantiferon blood test is required. If you have history of a positive skin test and blood test then a chest x-ray is required within the past 12 months.**
